

Leadtec InTouch iSeries

Bringing trading partners together

- **Hosted iSeries data transformation for tight integration with iSeries clients**
- **Document exchange and transformation – EDI, XML standards and proprietary formats using the heavy duty TrustedLink® iSeries translator from Inovis, a GXS company**
- **ERP Integration - automate messaging with your iSeries ERP system**
- **Route messages to remote locations – access to any global EDI network**
- **Fully replicated operations for real-time high availability**
- **Visibility - receive confirmations for all transactions handled including receipt by trading parties**
- **File set integrity – management of busy locks to ensure handling of consistently named files (iSeries DB2)**
- **Transparency – terminal access to view, re-send and monitor transactions**

Get InTouch with business

Leadtec InTouch iSeries

InTouch is a hosted service that enables businesses to exchange electronic transactions promptly and securely. Our specialist network picks up your data, transforms it into the format of your choice, and delivers it to its destination

With InTouch, you can:

- reduce costs and errors by eliminating manual data processes
- replace in-house translation to remove need for EDI skills and associated costs
- export existing maps (if any) to hosted environment
- increase the quality of your trading relationships through accurate and observable document delivery
- stay ahead of your competitors by streamlining your trading with major market players in EDI
- comply with industry standards such as GS1net™, EANway and regulated networks such as AANXLeadtec offers a range of InTouch products to enhance your business capability.
