

Leadtec InTouch

Bringing trading partners together

- **Transparency - web access to view, re-send and monitor transactions**
- **Document exchange and transformation - EDI, XML standards and proprietary formats**
- **Choice of trading channels such as FTP, SMTP, HTTPS, AS2**
- **Automated process management – your rules for data validation, notifications, exceptions and acknowledgements**
- **ERP Integration - automate messaging with your ERP system**
- **Secure – network and transactions encrypted and authenticated at multiple levels**
- **Route messages to multiple locations - access to any global EDI network**
- **AANX accredited network for automotive traffic**

Get InTouch with business

Leadtec InTouch

InTouch is a hosted service that enables businesses to exchange electronic transactions instantly and securely. Our specialist network picks up your data, transforms it into the format of your choice and delivers it to its destination.

With InTouch, you can:

- reduce costs and errors by eliminating manual data processes
- accelerate your trading cycle - our network delivers documents in seconds
- stay ahead of your competitors by trading with the major market players in EDI
- increase the quality of your trading relationships through guaranteed and accurate document delivery
- operate at low cost by reducing expensive IT staff, infrastructure and running costs
- comply with industry standards such as GS1net, EANway and regulated networks such as AANX
- streamline business processes by integrating with your existing ERP system.

Leadtec offers a range of InTouch products to enhance your business capability.
